

**4C** chair platform  
IRWIN SEATING COMPANY

# 4C the next generation

The 4C chair platform is the latest industry advancement developed by Irwin Seating Company. This flexible system features new aisle end options and an innovative tablet arm assembly. Not wanting to limit choices, we've made sure most of our traditional backs, seats and aisle end panels can be used with this revolutionary platform to give you the ideal fixed seating solution.

new, attractive aisle end panel available with veneer, laminate or upholstered inserts as well as aisle lights, row letter tags, and logo plates

optional foot shroud hides attachment anchors and foot plate yet allows easy access for maintenance

armrest options include color coordinated engineered polymer, curved wood, flat wood or laminate surfaced

large, durable, patent-pending tablet arm assembly can be installed for left or right hand user and utilizes a one-motion, anti-panic mechanism

innovative design reduces the need for back and seat size reductions – giving the patron a more comfortable chair

interchangeable steel column is 100% robotic-welded and allows for accessories like tablet arms and cupholders to be added at a later date

universal formed foot allows for alternative anchor installation to accommodate site conditions

engineered glass-filled polymer armrest support assembly is elegant and durable and can be colorized to match the steel column or the polymer armrest

new, sleek open aisle end standard with seat landing bracket cover to conceal hardware

angled column minimizes the appearance of attachment hardware, de-emphasizes the column and gives the patron more hip / leg room

available in multiple riser and floor mount options to meet a variety of site conditions

available with most upholstered / wood backs

available with the No. 6 Steel, No. 12 Universal, No. 14 Crusader, and No. 22 Fully Upholstered seats

available with a number of traditional aisle panels that can be surfaced with laminate or wood veneer (all are now available with an optional block front shown)

## room to grow

The flexibility of the 4C chair platform extends to its accessories and none illustrate this better than our new tablet arm assembly. Available in four sizes, this tablet arm features a built-in anti-panic mechanism for quick, easy storage under the armrest and a distinctive feature that allows the user to move the tablet in or out to place the tablet in a comfortable position. While these features are truly unique, they mean nothing if the assembly is not durable. Based on our testing we know of no other self-storing tablet arm as strong as this one.

X-Large (151 sq. in.)

Large (120 sq. in.)

Regular (100 sq. in.)

Small (83 sq. in.)
